

# S-485

With incredible pulling power and the OASIS control system, the **S-485** is a ride-on four-wheel drive model that can screed in any direction and is easy-to-operate. Now available with the option of an 8' or 10' head, the S-485 can help you get more done in a single pass while the new quick disconnect feature allows for simplified head removal!

With the versatility to be utilized as a Laser Screed® machine or a Laser Controlled Rake, the S-485 provides simple, fast, and accurate grade results whether you are screeding concrete or prepping the sub-grade. Packed with modern features like USB charging options and updated operator ergonomics, the S-485 is sure to please!

SCREED HEAD WIDTH	10' / 3.0 m 8' / 2.4 m
RAKE/GRADING HEAD (OPTIONAL)	8' / 2.4 m 6' / 1.8 m

## WHAT OUR CUSTOMERS SAY:

“Everyone should have an S-485. It is essential. What we like about the small screed is it doesn’t have an auger, so we don’t have to worry about going left or right; we can go any direction we want no matter how many penetrations are in the floor. If you have a job that needs high numbers but you can’t get an S-22E in there, you have to use a small screed. This 485 is state of the art.”

– Stevie Ray Lloyd, *Lloyd Concrete*
