

S-940

The **S-940** provides unmatched versatility and simplicity with increased power and productivity! Available with a fully automated self-leveling screed head, raking/fine grade head, this powerful machine has fewer switches and an easy-access hinged console, making any job comfortable for your operator.

It has a foldable elevation beam that provides a narrower profile during transport with the added benefit of providing easy entry to jobsites. The off-set screed head provides less of an overlap per pass. With the option of a powerful diesel engine, this model is unstoppable.

FEATURES/BENEFITS:

- > Improved floor quality
- > Increased profitability
- > Somero Quick GradeSet System™
- > Auger Screed Head can screed on Chaired Mesh, Chaired Rebar, Heat Tubes, some slab-on-deck and more.
- > Raking/Fine Grade Head for raking concrete, finish grading or spreading material (sand, stone, etc.).
- > Auto valve calibration for consistent, unsurpassed performance
- > Rotating head dollies optional
- > Works well with slump as low as 3 ½" / 8.9 cm
- > On-site training available
- > Compatible with the 3-D Profiler System®
- > OASIS Laser Control System
- > Column-Block Protection

SPECIFICATIONS:

WEIGHT	1,653 lbs / 750 kg
WIDTH	4' 9" / 1.5 m
LENGTH	11' / 3.4 m
ENGINE (STANDARD)	22 HP Subaru EH65
ENGINE (OPTIONAL)	Diesel 24.8 HP Kubota DH902
TIRES (STANDARD)	38 PSI / 262 kPa
TIRES (OPTIONAL ATV)	9.8 PSI / 67.6 kPa
SELF-PROPELLED	4-Wheel Drive w/ Hydraulic Motors
SCREED HEAD WIDTH (STANDARD)	8' / 2.4 m
SCREED HEAD WIDTH (OPTIONAL)	10' / 3 m
RAKE/GRADING HEAD (OPTIONAL)	9' / 2.7 m
